AFRAID, AND DAREN'T.

The Deputies and Miners Eyed Each Other Angrily,

But Neither Side Did Anything Yesterday.

MILITIA IS THERE.

Miners Ready to Fight at Drop of Hat.

DENVER, Col., June 8.—Unless some excited posse of deputies or band of reckless miners persist in making trouble, the crisis at Cripple Creek is over. The most authentic facts out of a great mass of excited telephone and telegraphic dispatches indicate that the miners are willing to lay down their arms, come into the camps of the national guards and become good citizens once more.

The militia, under Brigadier General Brooks, 800 strong made a forced march from Midland starting at midnight, and reached the scene of the troubles at 3 o'clock in the afternoon, none too soon to prevent a clash between the miners and the deputies. When Brooks reached the camp he requested the deputies to withdraw their picket line and he would substitute his own men. To this the deputies demurred.

Last evening a squad of deputies marched through the main streets in military order. Mayor Lindsay took the occasion to tell the deputies that they must not enter the corporate limits of the city any more.

They passed on without making a stop, evidently intent on making some point of vantage before dark. Sheriff Bowers was waited on by a large delegation of deputies, who urged him to allow them to accompany him to Bull hill in the morning. He consented, and this may precipitate a row. The town is still intensely excited. The presence of the militia does not bring any relief. The deputies want none of their aid, and the strikers stand ready for a scrimmage at the drop of a hat.

OF INTEREST TO ALL.

Judge Ewing of Chicago, Makes a Curious Decision.

CHICAGO, June 8.—Judge Ewing rendered a decision yesterday which holds that a citizen of the United States cannot acquire title to real estate by inheritance from the inheritance has to be traced back through alien ancestry, for the reason that such alien ancestry is without inheritable blood, which is necessary to transmit an inheritance from one person to another. The decision is the first rendered upon this point under the present statute of the state and it is doubtful if a parallel decision has been rendered in any state.

WAR SCARE IN SAMOA.

Prospect of Serious Fighting at an Early Date.

APIA, SAMOA, May 22, per steamer Mariposa, via San Francisco, June 8.—There is no abatement in the war scare, notwithstanding the presence of three ships of war, and there is every prospect of serious, bloody fighting at an early date. Two conflicts have occurred between small parties of rival troops, which have resulted in four being killed. Both parties have occupied strong positions.

CONDENSED TELEGRAMS.

The Platte river in Nebraska is rapidly rising, but no great damage has yet been done, though much is apprehended.

The steamer Ocean collided with the barge Kent near Sister Island Light, Lake Ontario, and both vessels were sunk.

The Republicans of the Third Indiana district have nominated Robert J. Tracennell of Corydon as their candidate for congress.

The Populists of the Eleventh Indiana district nominated A. J. Benson of Huntington county as their candidate for congress.

Ex-Senator Sabin of Minnesota has brought three sensational suits against Receiver O'Gorman and Attorneys Searles and Gail, the amounts aggregating \$39,800.

Joe Johnson and David Reed, two rival claimants for a tract of land north of Perry, Ok., quarreled, and Johnson shot and killed Reed. Johnson has been arrested.

Lewis Willis, president, and Samuel E. Jones, secretary of the McKinley tariff league, have issued a call for a convention of colored Republican clubs to be held at Whitcraft hall in Washington July 2.

The city of Chicago has filed twenty-eight suits against as many railroads for amounts aggregating more than \$2,000,000 for damages resulting from the construction of viaducts over various streets.

The house committee on railways and canals has agreed to report the compromise bill drawn by Representative Ryan of New York for the survey of a ship canal route from the Ohio river to Lake Erie.

The second annual meeting of the Texas Equal Rights Female Suffrage association is in session at Fort Worth. Reports of officers show the movement for woman suffrage to be gaining ground in the state.

The commission appointed to treat with the Osage Indians in Oklahoma to secure allotment in severalty of their lands has reached the reservation, and will commence its work at once. The work will probably continue a month or six weeks.

The old man, supposed to be Alex Stewart, who was asphyxiated by gas in Baltimore, Md., on Monday, is said to be none other than Edward Little, at one time one of the most notorious confidence men, forgers and boarding-house chieftains in the country. His photograph adorns the pages of "Criminals of America."

HAWAII PROPERTY.

Her Flag Has Been Planted on a Barren Island.

HONOLULU, May 31, Per Steamer, Mariposa, via San Francisco, Cal., June 8.—The long looked-for constitutional convention met yesterday. The assemblage gathered in the hall formerly used as a meeting place for the legislatures of the royalty. None of the old-time pomp and ceremony marked the occasion. The room was full of people, and all the foreign diplomatic and consular corps were present with the exception of the representatives of England and Portugal.

Minister Wodehouse, the British minister resident, was asked to be present, but sent a formal reply stating he could not be there, but giving no reason for his action. The birthday of Queen Victoria only a few days ago, by request of Mr. Wodehouse, was fittingly acknowledged by the Hawaiian government, and his action is regarded as extraordinary. The Portuguese consul is at present in San Francisco.

The ceremony opening the convention was very brief. President Dole read an address to the members, after which an adjournment was taken until to-day.

The steamer Iwalani returned Tuesday from Necker Island. The minister of the interior, Mr. King, at the head of the expedition, raised the Hawaiian flag over the little island, and Hawaii now owns more property. The new acquisition is a perfectly barren island, of no use whatever except as a possible resting place for the proposed cable.

PATROLLING A RAILROAD.

Troops of Cavalry Sent to Pond Creek to Protect Property.

EL RENO, Ok., June 8.—The force of deputy marshals from El Reno, who went to Enid to protect the railroad property from the townspeople of that city returned yesterday. They report affairs fully as bad at Pond Creek as reported, and that constant patrol of the railroad was all that kept the railroad bridge from being burned out as the bridge was already oiled and prepared for the match. A special train came down to Fort Reno for troops of the Third cavalry and two troops of cavalry went up to the scene of the wreck. They have not returned.

LITTLE HOPE FOR MOORE.

Four Democrats of the Elections Committee in Favor of Mr. Funston.

WASHINGTON, June 8.—Congressman Funston will very likely remain the representative of the Second Kansas district in this congress. Four of the Democratic members have notified their colleagues that they have examined the record of the case with care and that they are for Funston and against Moore.

DAVIS RENOMINATED.

Populists of the Fifth District Satisfied With Their Man.

CLAY CENTER, Kan., June 8.—The Populist convention of the Fifth congressional district met here yesterday. All the counties were represented. After hearing a letter read from John Davis, member of congress, he was renominated by acclamation, no other name being mentioned.

To Make Peace With the Old Folks.

ABLENE, Kan., June 8.—W. E. Stockel and Miss Annie Wells, two prominent young people of Centralia, were married here last evening. Miss Wells' parents objected to the match and so she left home to visit in Kansas City, then returning and coming directly here, was joined by her lover at Manhattan. A minister met her according to a telegram and the wedding took place on the arrival of the train. They left for Centralia to make peace with the old folks.

Hold Up in Broad Daylight.

GUTHRIE, Ok., June 8.—J. W. Manning, a store keeper in the Iowa country, was held up by two masked robbers yesterday noon and relieved of \$175. Manning at first showed fight, but the rattle of a gun over his head brought him to terms. It seems there is an organized band of robbers in the country whose specialty is holding up stores in broad daylight. Six robberies of this nature have occurred in the Indian country within the past two weeks.

Working the Oil Fields.

NEODESHA, Kan., June 8.—This city is enjoying a growth unprecedented in these times. Several new operators have joined the original company which discovered the oil field in this vicinity and developments are progressing rapidly. The first regulation oil tank ever erected in the state is in process of construction. Real estate men from all over the state are arriving on the ground and it looks as if a substantial boom was on.

Fought With Carving Knives.

MINT SPRINGS, Ark., June 8.—Gilmore Kennedy and Collins Logan, two well-known young farmers, came together with carving knives near here as a result of a disagreement at a stag picnic. Gilmore was literally hacked to pieces and died in the conflict. Logan was cut in the groin, which may terminate fatally. Logan surrendered. He claims the killing was accidental.

Cruciated Alive.

GUTHRIE, Ok., June 8.—Mollie Sako, and Indian woman, was burned to death yesterday at her home in the Kickapoo country. The two boys of the woman were playing about a big fire. As the mother was passing them, one of the lads pushed his mother, knocking her into the fire. Before she could be rescued her flesh was burned to a crisp.

Met the Dawes Commission.

DENISON, Texas, June 8.—The Dawes commission addressed about 2,000 Indians yesterday at Durant, I. T., urging the necessity of accepting statehood. The addresses made a favorable impression. The commissioners, who were all present, were treated to an old-fashioned Indian barbecue.

MILLIONS LOST.

The Damage Done by the Northwest Floods,

Will Run Far Up Into the Millions.

CYCLONE IN OREGON.

Much Damage to Property and Loss of Life.

PORTLAND, Ore., June 8.—No accurate estimate of the damage by floods along the Columbia and Willamette rivers can be made. It is certain, however, to run into millions of dollars. The entire Northwest, including Idaho, Washington, and Oregon and British Columbia is virtually shut off from the East by floods. The Canadian Pacific roads have been washed out for hundreds of miles, and it will require weeks to repair the damage when the water goes down.

In Northern Idaho the Great Northern and Northern Pacific have been washed out for miles, rendering the roads almost useless west of Idaho. The Union Pacific is partly used from Umatilla west, and the Oregon Railway and Navigation company's road, which is the western connection of the Union Pacific, will have to be practically rebuilt from Umatilla to Portland, a distance of 200 miles.

The Upper Columbia is not falling, but the river here remains stationary. It will require at least a week for the water to get out of the streets whenever it begins to recede, as at many points on Front street the water is ten feet deep. The streets adjacent to the flooded districts, which now include three-fourths of the business portion of the city, are alive with vehicles of all kinds hauling goods out of the water.

CYCLONE IN OREGON.

Disastrous and Death-Dealing Storm Passes Over Grant County.

BAKER CITY, Ore., June 8.—A disastrous and death-dealing cyclone passed over a portion of Grant county Saturday. The path of the cyclone was from Fox valley to Long creek. It demolished everything in its way. James Parrish, a farmer, his wife and one child were killed. A number of houses were destroyed and the loss of live stock was considerable. The cyclone was accompanied by a terrible hailstorm. Some of the stones measured seven and one-half inches in circumference.

CENTRAL PACIFIC DEBT.

Californians Before the House Committee to Oppose Refunding Scheme.

WASHINGTON, June 8.—The house committee on Pacific railroads gave a hearing yesterday to the Californians who are opposed to refunding the debt of the Central Pacific. Ex-Congressman C. G. Sumner said he protested for the people of California against any funding scheme which would perpetuate the present management, one which had brought deplorable, moral, political and financial calamity upon that state.

Mr. Sumner explained the California law which made stockholders responsible for debts of a corporation.

KELLY SELLING HIS BOATS.

His Army in Need of Rations and He Cannot Find Them.

CAIRO, Ill., June 8.—Kelly yesterday morning broke up his boats. The man on whose farm he is camped ordered him to vacate. He compromised by giving him the lumber from his boats for permission to stay a day longer. His army is in need of rations. Many are reported sick. He has no tents and no transportation, and each hour makes the situation more critical. The quarantine against him is very strict, and no one from his army is allowed to enter Cairo.

INDIAN APPROPRIATIONS.

House Has the Bill Under Discussion and a Bitter Debate Occurs.

WASHINGTON, June 8.—The house had the Indian appropriation bill under discussion yesterday. The main feature of the debate was an attack on the Catholic church made by Mr. Linton of Michigan, in which he argued against the contract Indian schools, saying that under this system the largest share of the appropriation for education of the Indians went to the Catholic Indian schools.

Poisoned by Mulberries.

EUFALA, I. T., June 8.—As a result of eating mulberries, two families have been entirely broken up. Last week the families of two farmers living near Euflala, C. H. Timmons and Tom Waugh, ate a lot of mulberries that they had gathered, and in a short while they were all taken suddenly ill. A physician was called and pronounced it a case of poisoning, there having been locust eggs in the berries. Timmons and Waugh have both died, and several of each family are very low and not expected to live. The symptoms are identically the same as those of Asiatic cholera.

Commanded by a Russian Nobleman.

CHICAGO, June 8.—Three hundred commonwealers, composed of Poles, Bohemians and Austrians, started from here yesterday for Washington. The aggregation is commanded by Joseph Rybakowski, who claims to be a Russian nobleman. The army was escorted from the city by a detail of police.

A Great Scholar Dead.

NEW HAVEN, Conn., June 8.—Prof. W. D. Whitney died at 10:05 this morning of heart disease, his death having been momentarily expected for some days.

Prof. Whitney was one of the leading Sanskrit scholars of the world.

MR. QUAY OBJECTED.

An Agreement to Expedite Tariff Work Comes to Nothing.

WASHINGTON, June 8.—For several hours yesterday Senators Aldrich and Allison conferred with Senators Harris and Cockrell and each side held consultations with party friends. As a result, an agreement was reached to proceed under the five minute rule with the schedules of the bill until wool should be reached, and finish them this week, so that the wool schedule could be taken up next Monday. This included the agricultural schedule, which is now under consideration, spirits, wines and other beverages, cotton manufactures and flax, hemp and jute.

At 2 o'clock Mr. Harris proposed the agreement in the senate, and, with the modification that senators might speak for ten minutes, it was discussed by Mr. Hoar and Mr. Frye. While the discussion was going on Mr. Quay came in, asked what was before the senate and objected. This killed the agreement temporarily at least.

Before the agreement was presented Mr. Hoar introduced a resolution calling on the judiciary committee to pass upon the equity of the action of the attorney general in claiming \$15,000,000 from the estate of the late Leland Stanford. He eulogized Mr. Stanford and praised the objects to which he had devoted his wealth. Mr. Blackburn said the course prompted by the resolution was unprecedented in the history of congress. The real question was whether the estate which was devised by Mr. Stanford to educational purposes had not been wrongfully diverted from the United States. No action was taken.

THE DOCKING ISSUE AGAIN.

House Members Not Satisfied With the Present System.

WASHINGTON, June 8.—Feeling over the enforcement or non-enforcement of the statute for docking senators' and members' salaries will not subside in the house. The resolution introduced by Representative Sperry of Connecticut, calling upon the sergeant-at-arms for accurate information as to the enforcement of the law and for a report of the certificates signed by members, will bring the question up again if the committee on rules will report.

CLOSED FOR GOOD NOW.

The Denver German National Unable to Meet Its Depositors' Certificates.

DENVER, Col., June 8.—The German National bank did not open its doors to-day and Cashier Kunzweiler says that the institution is compelled to go out of business. It was closed during the panic last summer, but subsequently reopened on an agreement with the depositors who accepted extension certificates. It is impossible to ascertain whether the depositors will be paid in full or not.

MYRON REED RESIGNS.

The Denver Minister Forced to Retire Owing to a Recent Sermon.

DENVER, Col., June 7.—The Rev. Myron W. Reed, one of the popular ministers of this city, has resigned the pastorate of the First Congregational church. The step was taken because of exception to some of his remarks made in the pulpit last Sunday evening, in which he criticized the Cripple Creek mine owners.

AFTER THE TRUST CHIEFS.

The Senate Investigators Subpoena the Havemeyers and Other Notables.

WASHINGTON, June 8.—Subpoenas directed to members of the sugar trust have been issued by the senate committee of investigation. Among those whose presence before the committee is desired are the two Havemeyers, Reed, Searls and Matthieson.

CUTTER BEAR WRECKED.

One of the United States Seal Patrol Fleet on the Sixty Rocks.

SAN FRANCISCO, June 8.—The United States revenue cutter Bear is almost a total wreck and possibly by this time is battered to pieces at the entrance to Sitka harbor.

A Corner on Apples.

CHICAGO, June 8.—What few good apples there are in Chicago are held at \$50 a barrel—a price high beyond all precedent. As there are 400 apples in a barrel this makes them worth 12½ cents each. One South Water street firm has all the stock there is in the city and is holding the precious fruit until it will be practically worth its weight in gold.

George to Work for Simpson.

EMPORT, Kan., June 8.—It is stated here on good authority that Henry George, the New York single tax advocate, will stump the Seventh congressional district for Jerry Simpson, on account of Simpson's sickness and their deep friendship, they having been drawn together by the similarity of their views on economic and political questions.

Six Years for Wrecker Haughey.

INDIANAPOLIS, Ind., June 8.—Theodore P. Haughey, president of the defunct Indianapolis National bank, was this morning sentenced to six years in the penitentiary for his part in wrecking that institution.

Chief Nagasab Dead.

DULUTH, Minn., June 8.—Nagasab, the 100-year-old chief of the Chippewa, died on the Clouet reservation last night. He negotiated the treaty of 1837 by which North Minnesota was ceded to the United States.

MR. JENNINGS' PRIZE.

A Pocket Barometer Presented Him By English Tourists.

Weather Observer T. B. Jennings' is the possessor of a very fine aneroid pocket barometer which he prizes very highly.

In 1876 he had charge of the U. S. weather service exhibit at the International exhibition at Paris and while there made the acquaintance of a party of English tourists. They made frequent visits to his exhibit.

One day after returning from a trip in the mountains they swarmed into his place and presented him with the barometer.

It is an accurate one and will even indicate the difference in atmospheric pressure in ascending the elevator.

Deafness Cannot be Cured.

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure Deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube gets inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed Deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free.
